Consumer Notes:

Overall, this is a quiet month (only a single page this time around, and that doesn't happen all that often any more). Biggest in April are probably the first of the Mobile Suit Gundam dubs, Sakura Wars (for all those gamers out there), some cool new Chromacels, and the video release of Video Girl Ai (which is really a good product!).

JEFF'S PICK(S) OF THE MONTH

From this month's releases, the hands down winner is Video Girl Ai. This is a show with a devoted following (for good reason) and although I was disappointed with the ending, getting there is a lot of fun! It's one of those "big" shows that had been lacking from the US for a long time ... but no longer! Also, check out the "next" batch of Slayers!
